### House Manual

Please,

no shoes in the house (very important!), hot water manually turned on and off, washing machine only after 22:00, recycling bin must stay clean (please do not litter it with organic garbage)/ do not remove make-up with towels / do not remove toilet paper (only for use in the house) / do not throw toilet paper in the basin.

\*please, leave the flat back clean and tidy! :-)

How to check-out.

\*You will find an envelope with a key inside (key of the building door)

1. Have the "check-out envelope" with you.
2. Leave the pair of keys you were using while staying in the house (on the table, NOT ON THE LOCK) and just close back the apartment door without locking.
3. Go downstairs. Open the building door with the key of the envelope.
4. Go out.
5. Lock back the building door.
6. Put the key back in the envelope.
7. Slide the envelope under the building door (like normal mail).

\*building door must always remain locked.

Thanks a lot!

:-)
